

Commercial proposal № 02

for delivery of bioactive cosmetic suspension “**Tinowa**” with effects of quantum non-locality of electron transfer from lithosphere to the organism for beauty of the skin and health of the body, protection of the cities from the man-induced load, climatic changes and non-infectious diseases.

The prices for products are specified on terms of EXW Incoterms 2018 from the storage of the manufacturer in Karlovy Vary, Czech Republic, excl. VAT.

Delivery in container: 20-foot GP container

Container type 20-foot	Standard Dry Cube		High	High Cube
	External	Internal	External	Internal
Dimensions				
Length, m	6.058	5.898	6.058	5.898
Width, m	2.438	2.350	2.438	2.350
Height, m	2.591	2.390	2.896	2.693
Dimensions of door way:				
Width, m	2.336		2.340	
Height, m	2.291		2.597	
Weight parameters:				
Weight of container, ton	2.1		2.3	
Bearing capacity, ton	21.9		21.7	
Maximal weight, ton	24		24	
Volume of container (cubic meters)	33		37	

Delivery of suspension in boxes of different packages without pallets:

Package - 4 cans of 1.0 liter per box.

I. Arrangement of 16 x 2, 14 layers. Total 448 boxes of 4 cans of 1 liter per can (bucket type). Packing boxes are made of cardboard **dle Fefco**

0201/555 x 145 x 145 mm (external dimension). Weight of box – 5.86 kg. Cost of boxes with 4 cans of suspension is €26,10 x 448 = €11.692,80. Total weight is 2.625 Kg or **1.792 liter**.

Package of 3.5 liters, one can per box.

II. Arrangement of 9 x 8, 11 layers. Total 792 boxes, one 3.5 liter can per box (bucket type). Packing boxes are made of cardboard **dle Fefco 0201/250 x 250 x 144 mm (external dimension)**. Weight of box – 4.80 kg. Cost of boxes with 3.5 liter cans of suspension is €16,70 x 792 = €13.226,40. Total weight is 3.802Kg or **2.772 liters**.

Package of 5.5 liters, one can per box.

III. Arrangement of 9 x 10, 11 layers. Total 990 boxes, one 5.5 liter can per box (bucket type). One can per box made of cardboard **dle Fefco 0201/250 x 250 x 220 mm (external dimension)**. Weight of box – 7.80 kg
Cost of boxes with 5.5 liter cans of suspension – €21,96 x 990 = €21.740,40.
Total weight – 7.722Kg or 5.445 liter.

Total cost of bioactive suspension “Tinowa” without pallets in a 20-foot GP container on EXW delivery terms is:

€11.692,80 (1792L) + €13.226,40 (2772L) + €21.740,40 (5445L) =
\$46.659,60 – weight 14.149 kg – 10.009 liters

Discount is 7% (€3.266,17). Cost of suspension in one container:

\$43.393,43

Cost can change due to the currency rate of the Czech koruna to the US dollar. The Czech koruna is the most sustainable currency in the world.

\$43.393,43 : 10.009 liters = €4,33 USD / 1 liters.

The size of container depends upon the volume of suspension: a 20-foot or a 40-foot GP container. Packaging scheme of container according to the types of packages of the suspension “Tinowa” and the exact cost of delivery on EXW terms is made upon the base of the order+ logistics cost for the delivery of goods to the Client. Delivery in container can be on pallets or without pallets, it depends upon the terms of the Client.

Upon receiving of the request the Client is provided an invoice for payment and the date of shipment is specified from the storage of the manufacturer to the address of the Client.

The cost is calculated in EURO and can differ slightly due to the change of the currency rate of EURO to the Czech koruna.

Payment can be made in the currency of the country of the Buyer according to the currency of the National Bank of the Czech Republic to the Czech koruna at the date of the contract between the Buyer and the Seller. The term of execution and shipment of the order since the date of payment is up to 30 days.

Commercial proposal is valid till 30.11.2018.
